Instructions for Use

Rake into the top 5-10 cm (1-2 inches) of the growing medium just prior to seeding, sodding, or sprigging. Use 9-11 kg (20 to 25 lbs.) per 100 sq. meters (1,000 sq. ft.). Up to 23 kg. (50 lbs.) per 93 sq. meters (1,000 sq. ft.) can safely be applied to the top 10-15 cm (4-6 inches) as desired.

Storage and Handling

Store in a dry location. Keep bag closed when not in use.

To accelerate establishment when building and rebuilding cool and warm season turf whether seeded, sodded or sprigged.

Formulated for high sand content rootzones, such as USGA sand/peat mixes, California type, and Prescription Athletic Turf (PAT) Systems.

GroWin is a granular rootzone amendment used to accelerate establishment of seeded, sodded or sprigged turf. It contains a variety of organic meals agglomerated into easily-spread homogenous granules.

Applying 25 lbs of GroWin per 1000 sq ft will deliver 1.25 lbs. of N.

CAUTION!
KEEP OUT OF REACH OF CHILDREN.
