

Emerald Isle Solutions™

PanaSeá Plus® is a blend of natural sea plant extracts harvested from the North Atlantic Ocean stabilized with a very small amount of phosphoric acid. Use as a foliar spray for maintaining golf course greens and tees, grass tennis courts and athletic fields. Also ideal for high visibility lawns, parklands, roadways, and landscape and horticulture applications.

Turf Application Guidelines

Golf Course Greens and Tees, Grass Tennis Courts and Athletic Fields:

Apply 59 to 88 ml. Per 93 sq. meters (2-3 ounces per 1,000 sq. ft.) every 7 to 14 days starting at the initial stages of growth and continuing throughout the season.

Warm Season Turfgrasses: Apply at the more frequent rate.

Horticulture Application Rates

Standard Mixture - 59 ml. per 3.8 liters of water (2 ounces per gallon of water).

Apply every two to four weeks during the growing season.

Trees - Apply 3.8 liters (1 U.S. gallon) of standard mixture per 2.5 cm. (1 inch) diameter of trunk as a drench to the drip line or apply as a foliar spray to the tree.

Shrubs - Apply 3.8 liters (1 U.S. gallon) of standard mixture for every 30 cm. (12 inches) of growth.

Ornamentals and Flower Beds - Apply 3.8 liters (1 U.S. gallon) of standard mix for every 122 meters (400 sq. ft) of foliage.

Transplants or Other Stressed Plants - Use standard rates.

Application Guidelines

Shake or agitate before use. Apply in the early morning or late afternoon for best results. Use a spray adjuvant for superior coverage. Allow foliar product to dry on plant prior to irrigation.

Mixing Guidelines: Use a minimum of 3.8 liters of water carrier per 93 sq. meters (1 U.S. gallon per 1,000 sq. ft.). Fill mix tank with half of required spray water and turn on agitation. Measure product into tank, add remaining water and other soluble materials. Add a defoaming agent if desired, and adjust pH of tank-mix to neutral if necessary.

PanaSeá® Plus

0•2•2 Liquefied Sea Plant Extract

Guaranteed Analysis

Available Phosphate (P₂O₅) 2.00%
Soluble Potash (K₂O) 2.00%

Compatibility: Emerald Isle liquids are compatible with most fertilizers and chemicals but should not be mixed directly with other chemicals. Mix in spray tanks with water and proper agitation. Conduct a jar test as needed to ensure compatibility with other products before tank mixing.

Storage and Use Guidelines

Store in original containers at temperatures between 10°C and 35°C (50°F and 90°F). Mix with other materials only at time of application and in exact amounts required. To avoid contamination, do not return previously mixed product to its original container. Use all product within 12 months of original purchase date.

**CAUTION!
KEEP OUT OF REACH OF CHILDREN**

Harmful if swallowed. May cause irritation. Avoid contact with eyes, skin, and clothing. Wear chemical resistant goggles and gloves. Do not take internally. Avoid inhaling mist or vapor. In case of contact with eyes, flush eyes with water for 15 minutes. If irritation occurs, seek medical attention.

Foliar fertilization is intended as a supplement to a regular fertilization program and may not, by itself, provide all the nutrients normally required by crops or other intended plants during the course of the year.
